

MASKS

Start from underneath the chin, go up the side of the head, over one ear, over the top of the head, back down the other ear and back to under the chin to make a complete circle. (Essentially you're measuring the circumference of the part of your face that the mask will be encircling.) Use a soft measure tape and make sure to keep it snug or else you could end up with a mask that's too large.

Remember that our masks are adjustable! If you receive your mask and are unsure if it fits, please ask your coach or an experienced team mate to help you adjust it.

Use bold measures when ordering. The other numbers are used for reference.
